Accidental Dwelling Fires in Your Area

Current figures suggest that there is an increase in accidental dwelling fires within the area served by Haden Cross Community Fire Station. The Fire Station is offering to carry out a free Safe & Well Visit to help you stay safe in your home.

Accidental dwelling fires can be caused by many factors. Two common reasons for this increase could be distraction or leaving cooking unattended. We always request that you **watch what you heat** at all times and never leaving cooking unattended.

This short visit will ensure your smoke alarms are working and in the correct place, fit smoke alarms free of charge, if required, and provide fire safety advice. Visiting firefighters will always be wearing uniform and carrying identity cards. If you would like this service, please telephone our Freephone number on **0800 389 5525** quoting referral number **4480** or go to www.wmfs.net also using referral number **4480**.

Should you be suspicious for whatever reason, do not allow the caller into your home and do not give any details.

This free service could save your life and your family's lives.

"Making the West Midlands Safer, Stronger and Healthier"

Kind regards

Haden Cross Community Fire Station
