

## National Careers Week - 4th to 9th March 2024

Next week is National Careers Week (NCW) which is a one-week celebration of careers education across the UK. NCW is all about gaining career guidance at an important stage in the academic year to help support young people develop awareness and excitement about their future pathways.

Throughout the week a virtual careers fair will be taking place for students to find out more about different employers and career routes: <https://ncw2024.co.uk/>

BBC Bitesize has a 'can you guess the job' career (<https://www.bbc.co.uk/bitesize/articles/zh9f46f>) along with lots more interesting content on careers themed each day throughout the week.

Parents/carers or students can also download the 'Parents Guide to National Careers Week' (<https://ncw2020.co.uk/booklets-guides/>) which has lots of useful information about different pathways and important conversations to be had about careers with or as young people.

There will be lots of exciting events in school next week too, including careers assemblies for Years 7 to 10, the Higher Education and Careers Fair on Wednesday 6th March and Options evening for Year 9 on Thursday 7th March. Get involved! And if any students or parents want to discuss careers please contact Mrs Brookes, Careers Leader.
